Please find below and/or attached an Office communication concerning this application or proceeding.

	Application No.	Applicant(s)				
Advisory Action	10/084,908	BOLSHTYANSKY ET AL.				
Advisory Action	Examiner	Art Unit				
*	Tuan N Nguyen	2828				
The MAILING DATE of this communication appears on the cover sheet with the correspondence address						
HE REPLY FILED 01 October 2003 FAILS TO PLACE herefore, further action by the applicant is required to a nal rejection under 37 CFR 1.113 may only be either: (1) ondition for allowance; (2) a timely filed Notice of Appearamination (RCE) in compliance with 37 CFR 1.114.	oid abandonment of this applica) a timely filed amendment whicl I (with appeal fee); or (3) a timel	ation. A proper reply to a				
	EPLY [check either a) or b)]					
a) The period for reply expiresmonths from the mailin the period for reply expires on: (1) the mailing date of this A no event, however, will the statutory period for reply expire I ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS 706.07(f). Extensions of time may be obtained under 37 CFR 1.136(a). The see have been filled is the date for purposes of determining the period of the under 37 CFR 1.17(a) is calculated from: (1) the expiration date of as set forth in (b) above, if checked. Any reply received by the Officemely filed, may reduce any earned patent term adjustment. See 37 CFR 1.17(a) is calculated from: (1) the expiration date of the context of	Advisory Action, or (2) the date set forth later than SIX MONTHS from the mailing FILED WITHIN TWO MONTHS OF THE date on which the petition under 37 CF of extension and the corresponding amounth that the shortened statutory period for reply ce later than three months after the mail	g date of the final rejection. HE FINAL REJECTION. See MPEP R 1.136(a) and the appropriate extension unt of the fee. The appropriate extension originally set in the final Office action; or				
1. A Notice of Appeal was filed on Appellant's 37 CFR 1.192(a), or any extension thereof (37 CFF	Brief must be filed within the pe	eriod set forth in f the appeal.				
2. The proposed amendment(s) will not be entered be	ecause:	•				
(a) they raise new issues that would require further consideration and/or search (see NOTE below);						
(b) they raise the issue of new matter (see Note below);						
(c)	n better form for appeal by mate	rially reducing or simplifying the				
(d) they present additional claims without canceli NOTE:	ng a corresponding number of fi	inally rejected claims.				
3.☐ Applicant's reply has overcome the following reject	tion(s):					
Newly proposed or amended claim(s) would canceling the non-allowable claim(s).		eparate, timely filed amendment				
The a) affidavit, b) exhibit, or c) request for reconsideration has been considered but does NOT place the application in condition for allowance because: <u>See</u> . the attachment,						
The affidavit or exhibit will NOT be considered because it is not directed SOLELY to issues which were newly raised by the Examiner in the final rejection.						
For purposes of Appeal, the proposed amendment(s) a) will not be entered or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.						
The status of the claim(s) is (or will be) as follows:						
Claim(s) allowed:						
Claim(s) objected to:						
Claim(s) rejected: $1-3,5-9,11-14,16$	-18					
Claim(s) withdrawn from consideration:						
☐ The proposed drawing correction filed on is a)☐ approved or b)☐ disapproved by the Examiner.						
Note the attached Information Disclosure Statement(s)(PTO-1449) Paper No(s).

Continuation Sheet (PTOL-303)

Application No.

Continuation of 5. does NOT place the application in condition for allowance because: the amended claims has been considered in view of the changes "a CLADDING PUMPED optical fiber, a MULTI-MODE pumping source, a combiner COMPRISING A TAPERED FIBER BUNDLE ... coupling pump light into the laser cavity UTILIZING MODE-BASED COUPLING WITHOUT THE USE OF WAVELENGTH-BASED COUPLING." In view of references DiGiovanni et al. (US 5864644) and/or Alphonse et al. (US 6363088) alone or in combination will meet the amended claims.

DiGiovanni et al. '644 shows in figures 1a-d, 3a-e, 5, 7a-h and discloses in the BACKGROUND OF THE INVENTION and SUMMARY OF THE INVENTION a cladding-pumped fiber device used in a wide variety of optical application, where there is a multi-mode pump source and a combiner having at least first, second and third port where the combiner comprising a tapered fiber bundle to couple light from multi-mode pump source untilizing mode-based coupling with the use of wavelength-based coupling (Col: 1-2). It is not new in the art having a optical fiber coupled between between a reflective device; and it is within one skill in the art to recognize the same device used in a variety of optical application, rearranging which port to pump or which port coupled within the laser cavity is within one skill in the art. Or Alphonse et al. (US 6363088), shows in figures 3-9a-b and discloses in (Col 1-11) a cladding pump fiber having rare earth core (Col 5: 20-30; Col 6: Table 1), where fiber has Bragg grating that consist of 1st and 2nd reflector (F 4: 410, 415) and grating has high index coating and low index coating (Col 7: 0-25; Col 3: 43-47; Col 11: 18-40), and , and the fiber laser is configured for directional pumping or bidirectional pumping (Col 3: 12-15; Col 6: 65-67; Col 11: 42-55).

Since claims 12, 14, 16, 17 recite the same or identical elements/limitations it is inherent to use patents ('644) and ('088) to recite the method for combinining laser light with pump light in an optical fiber laser device, product by process.

Earlier rejection did not use a combination of references; rejection was based on the claims language.

Claims 2, 4, 9, 10, 13, 15, 18 have been cancelled; Claims 1, 3, 12, 14 has been amended.
